

## SINGLE SUBJECT TEACHING CREDENTIAL

### Requirements for Individuals Prepared Outside of the United States

---

California has a two-tier credential structure. A five year preliminary credential is the first credential issued after an individual meets basic credential requirements. A clear credential is issued when all credential requirements have been completed.

A Single Subject Teaching Credential authorizes the holder to teach the specific subject(s) named on the credential in departmentalized classes such as those in most middle schools and high schools. However, a teacher authorized for single subject instruction may be assigned to teach any subject in his or her authorized fields at any grade level: preschool, grades K–12, or in classes organized primarily for adults.

The statutory subjects available for California Single Subject Teaching Credentials are as follows:

Agriculture	Languages other than English (specify)
Art	Mathematics
Biological Sciences (Specialized)	Music
Business	Physical Education
Chemistry (Specialized)	Physics (Specialized)
English	Science: Biological Sciences
Foundational-Level Mathematics	Science: Chemistry
Geosciences (Specialized)	Science: Geosciences
Health Science	Science: Physics
Home Economics	Social Science
Industrial and Technology Education	

The preliminary credential is issued for a maximum of **five** years. If requirements for the clear credential are not completed before the expiration of the preliminary, the holder will be unable to teach in California's public schools with that credential until those requirements are met and the document renewed.
